**Air Quality:**

To assess air quality during wildfire or emergency conditions, the [Northern Sonoma County Air Pollution Control District](#) recommends reviewing websites in the following order. You can also receive their updates via their FB page at: <https://www.facebook.com/nosocoair/>

- [AirNow Fire](#) - The most accurate source for available fine Particulate Matter (PM) measurements.
- [PurpleAir](#) Provides the most cautious health-based numbers. ● District Data Provide accurate measurements of PM-10 levels, a good indicator of ash concentrations during wildfire conditions.
- [AirNow Current AQI](#) (and Forecast) Forecasts air quality.
